To Whom It May Concern,

I am writing in reference to Docket # 98N-1038. I am opposed to allowing the requirement for labeling irradiated food to expire, or to change the term to "electronic pasteurization" or "cold pasteurization". I want as much information as possible about any food I buy. If the food and drug administration seeks higher quality and safer food it should hire more federal meat and produce inspectors, clean up slaughter houses and stop feeding antibiotics, hormones and rendered animal protein to livestock and support and promote sustainable organic agricultural practices. Please do not remove labeling requirements.

Thank you,

A handwritten signature in cursive script that reads "Marla Vandewater". The signature is written in dark ink and is positioned below the "Thank you," text.
